I am sorry, what is SBR? Is that tire crumb?

Ksenija

Unfortunately no, just SBR and EPDM.

Hi [REDACTED]

Thank you. I believe there will be sufficient interest in [REDACTED] **Ex. 6 Personal Privacy (PP)** facilities, especially since we will already be in [REDACTED] but I do need to confirm and let you know. In the interim, I will send out a Doodle poll accounting for a full day (8am-5pm) trip on our end, just to start people choosing the dates.

On another hand, I know from STC's presentation that EPDM is a polymer elastomer that serves as an alternative infill to tire crumb. Do your facilities also make other types of infill, such as the TPE or coated silica sand infill, in addition to tire crumb and EPDM?

Thank you,
Ksenija

Ksenija,

Our [REDACTED] **Ex. 6 Personal Privacy (PP)** and the most technologically advanced recycled rubber processing and manufacturing facility in [REDACTED] **Ex. 6 Personal Privacy (PP)**. It will take a minimum of 1-1 ½ hours to tour. Our playground surfacing operation is in [REDACTED] **Ex. 6 Personal Privacy (PP)**. If you want to visit both, I suggest at least 1 hour for [REDACTED] and 1 hour for [REDACTED] **Ex. 6 Personal Privacy (PP)**. We also have an EPDM manufacturing operation in [REDACTED] **Ex. 6 Personal Privacy (PP)** which may be of interest as well. It is approx. a [REDACTED] **Ex. 6 Personal Privacy (PP)** operations.

Let me know.

Thanks

[REDACTED]

Hi [REDACTED] **Ex. 6 Personal Privacy (PP)**

I am setting up the Doodle poll to lock in the date for our tour of your facility, but I did want to check a couple of more things with you. How much time should we budget; do you think that 10:30 – 12:00 is enough? Also, does the same [REDACTED] **Ex. 6 Personal Privacy (PP)** facility make playground material?

Thank you and all the best,
Ksenija
